

## **Frequently Asked Questions Renewable Energy Fund Fiscal Year 2021**

### **What is the Renewable Energy Fund (REF) budget for Fiscal Year 2021?**

The REF budget is still under development.

### **Why is the REF budget and associated program funding allocations for the Fiscal Year 2021 still under review and development?**

A number of legislative changes have impacted RSA 362-F. The Commission is currently assessing its available funding and related responsibilities due to statutory changes, with the assistance of the Office of the Attorney General and the Department of Administrative Services.

### **What is the status of LMI and non-residential grant contracts?**

Grant contracts approved by the Governor and Executive Council are encumbered and will be honored.

### **What is the status of submitted Step 1 and Step 2 rebate applications?**

The Commission is currently assessing its available funding and has not made a determination regarding the amount of funding that will be available for rebate applications. Information on your application will be provided as soon as it is available.

### **What is the amount of Alternative Compliance Payments (ACPs) received from electricity suppliers for the 2019 compliance year?**

ACP payments are almost fully reconciled with RPS compliance year 2019 reports. ACP revenues for the 2019 compliance year totaled approximately \$2.5 million.

### **How will updated information be distributed to stakeholders, applicants, etc.?**

The Commission will keep these FAQs updated and will continue to keep parties informed of any relevant decisions through Docket No. DE 10-024.

### **When will additional information be available?**

Further information will be provided as it becomes available.
